This is corruption with these Tories councillors in nelc these wards are important to the residents of these areas this tory councillor leader Jackson has no faith in the people of cleethorpes and Grimsby and we have no faith in HIM

I urge you not to let this happen this is a political plot against the independent councillors of these ward do to the last local elections if this was not for these councillors holding this tory run council to account.

PLEASE DO NOT LET THIS HAPPEN THIS COUNCIL NEEDS INVESTIGATING URGENTLY

My view probably not influence your decision but if you allow this the independent councillors who have fought for the people of their wards will be greatly affected
