Email: [REDACTED]  
Postcode: [REDACTED]  
Organisation Name: (Member of the public)

## Comment text:

**Related subject:** Removing wards/changing boundaries

There is no benefit to the interest of the public to do this, it would reduce the diversity within the board of those elected and negatively impact the wider community by limiting their options. I believe that the wards and boundaries should remain as they are. Only recently with certain changes have I felt councillors within my area have been visibly active to the public at all times, extremely open and honest which is very important even when they are informing you of things you disagree with they help bring proportion and understanding to the real public. I am certain this would be lost with the proposed ward changes.
