## Comment text:

All I have heard is the removal of one of the wards in grimsby and the Freshney Ward has been added because it is the newest ward. Firstly looking at the size of Freshney Ward which encompasses quite a large area and volume of constituents, i cant see how this can be dissolved or moved into other wards. We are fighting the possibility of 3500 new unwanted houses right next to me, under old and possibly new electrical pylons being forced by the government. If this Ward adjustment/reduction is because of the new housing agenda by Labour then I wholeheartedly contest the removal Freshney Ward to make way for unwanted homes in greenbelt land which should be farmed or left to the wildlife. Stop building and start/keep producing our own supply of food and produce so our country can be self sufficient. Concentrate on reducing immigration.....thousands of bodies coming intonour country can not be sustained. Keep the Freshney Ward!!
