**Related subject:** Wybers Wood, Great Coates & Willows Ward

I want to express my deep disappointment at the proposed plans for removing the Freshney Ward. This area has many people within it who are passionate about the ward whether it be protecting the local habitat & wildlife or creating an area that people feel safe and happy to call home. All areas of this ward work together whether it be the local nursery in Great Coates that my children attended that then feeds the local schools. The activities that my children attended on The Willows Estate even though we were Wybers Wood residents ie swimming at Whitgift School, dance lessons at Bishop Edward King Church etc This is just a few examples of many of how well this ward works well together. I find the explanation of the danger of the main road going through the ward and presenting a danger absolutely ludicrous as most children attending events in either Wybers Wood, Great Coates or The Willows would be escorted and there are two safe areas that have a pelican crossing or Zebra Crossing also a well used pathway that runs between Great Coates and The Willows. Is this abolition of the ward really what the residents want? Most definitely not!!
