**Related subject:** Freshney Ward

Hi

i feel the removal of the Freshney ward would be extremley detrimental, to the local area especially to the resident/ voters.

I personally feel this is a local political ward selection, and i feel there are more suitable ward in the borough that could be merged more easily, whilst keeping some of it identity.

If Freshney ward is chosen all the local identity that has been worked so hard for will be lost, and will be lost within other wards as the are alot further away from the heart of this community.

this ward has strong ties with the Yarbrough ward, as they share similar views and aims.

i ask you to consider not allowing this change as over the next few years the demographics will change yet again do to building in the local area
