## Comment text:

**Related subject:** Freshney

This is an absolute cowardly way of trying to get rid of decent ward councillors.  
The people that made this decision are scared of the healthy honest way in which the independants engage with their communities.

There has been no facts or reasoning as to why the freshney has been chosen. The destruction of these boundaries to be included in to a huge area will be unmanageable for all services including the police, councillors , council services etc.

Represent fact, figures and reasoning and people will trust in this decision. There is nothing apart from the obvious running scared.

The trust and confidence is the head of the council will absolutely be destroyed if this decision is made. EAST MARSH AND HENEAGE are like for like, merge them.
