**Related subject:** Freshney Ward

Myself and husband wish to strongly object to the proposed change to ward boundaries, we have lived and built our lives on Freshney ward for 40 years , we have really strong connections to the community and the the local area . Our children attended Wybers school , our grandchildren attended Great Coates nursery before attending wybers academy. . Most of our adult life is built around the ward with us moving from Wybers wood to Aylesby park in 19. We love our local area and are prod to be part of a close knit community . I have taken jobs on the willows estate , as did my sister . I know and feel connected to many of the residents that live there . I often frequent the local shops on both wybers and willows estate. My sisters both live and raised their families on the ward one on Wybers and the other on willows estate . My sister and I are part of a local group that collect litter and check the safety of the play equipment on Wybers wood park . My husband and I complete walks around Great Coates willows wybers and Aylesby park most nights, we enjoy this as we like to keep an eye on the area and feel safe as we know the area . Just recently our grandson was christened at St Nicholas our local church were we feel we have strong connections to , we have attended many events at Great Coates village hall , Great Coates is also where we go to pay our respects on poppy day ( we do this every year !) We felt a great sense of pride when great Coates won the award for Britain in bloom , as it so apparent how hard the residents had worked to keep it looking beautiful all year round .This is also ideal for us to use to catch the train when we go to Cleethorpes . We also both contribute towards the cost of keeping our river freshney clean , as we feel passionate about upholding the beauty of our river and the areas it flows through . Most of our passion was brought to head once we saw the work that our local independent councillors are doing , we have never seen such passion and commitment from any other local councillors ! We feel extremely angry that a proposed change to the ward boundaries could be con sidered without as far as I'm aware any consultation with the members of the public that this change will affect ! We voted for independent councillors! How can this change be right ,
