## Comment text:

Dispite having a bus service both ends of our Parish, they still don't stop or travell near enough to serve our parishioners, one is in the Ulceby parish adjoining our parish but not in our ward travelling into Grimsby The other from Immingham travelling to Barton on Humber and returning to Immingham just to far for us to catch along the Immingham Road going out and via another route on its return to Immingham. We have a small bus which runs once a week giving us just less than two hours in Immingham , Which ok for the big stores, but for doctors, hairdressers and and other shops and services there's just no time .We can't even use it to use the bus to Grimsby as we have no way of getting back to Habrough.I have written to you every year forthe last 7years and now having terminal Cancer hope for the sake of my wife who like many others don't drive and doesn't know what the future holds.
