Related subject: East and West Marsh

Please don't remove West Marsh from the map - West Marsh is a thriving community and one that is very together and provides so much support for its residents. The West Marsh Community Hub and what it does with Grimsby in BLOOM is amazing and is used by other parts of the NEL - it really does interact and support many parts of Grimsby.

East Marsh doesn't need to be made any bigger and already has the highest level of deprivation in England. West has the second highest and should be added to by the Yarborough Ward to even its population out. Plus Yarbrough ward is a funny geographical shape and would make more sense to split and move into other areas.

East and West Marsh are old wards and mean something to heart of Grimsby. By removing West you are taking away from its community and part of Grimsby's History.
