**Related subject:** Millison's Wood, Meriden

I refer to my previous submissions (ID:1111506 and ID:1113486) and moving the Meriden Parish to that of Arden from the Balsall and Berkswell area, as in your Draft Recommendations and the two reasons stated. Simply to balance numbers of electors per councillor and a bus route, is not sufficient justification. In fact, it is my opinion that nothing has been learnt from the history of the British Empire when disastrous country boundaries were decided based on lines of latitude and prominent geographical features without consideration of the tribal, ethnic and cultural aspects of the populace. The same applies regarding Meriden Parish, for reasons already stated in my previous submissions.
