**Postcode:** [REDACTED]  
**Organisation Name:** Resident of Olton (Member of the public)

## Comment text:

**Related subject:** Proposed changes to Olton Ward

Richmond Road belongs in the Olton ward as it contains some of the oldest houses in Olton. For example the Victorian villas have been in Olton since 1889 and were built by James Kent a famous Olton business man known as the 'King of Olton' Richmond Road was originally the entrance to Richmond Park hence why it was named Richmond Park Road with the lodge house that now sits on the Lyndon Road roundabout which was the toll house to the park.

Richmond Road also has St Margaret's CofE school sited on the road before the boundry which is linked to the church in the Olton Ward. How can you have a feeder school and its parish in different wards?

One of the main reasons why I chose to live in Richmond Road is because of its history and being proud of the area I grew up in. I've grown up on Barrington Road which also has houses built on an orchard in 1927 founded in Olton. It is a disgrace that this is even being considered by local councillors from Solihull borough council to move wards. The roads proposed are in Olton and not in Lyndon.
