Related subject: Olton boundary changes

I am disappointed and do not agree with the proposed boundary changes around Scott Road. I feel that this area is an integral and valued part of the Olton Ward. My children go to school in the area and also go to extra circular activities including scouts with links to Olton and are proud to be part of this community.

I feel that this change and will create a discord within these communities feeling left out and not wanted. The main reason I moved into the area was due to the association with Ollton and wanting to be part of that community and feel as an area we are punished as we are not as affluent as other parts.

The councillors that we have voted for democratically are opposing these changes rightly and I feel these moves are completely politically motivated and not for the benefit of the community.

I am very dissatisfied and disappointed with the comments made by certain councillors who have made comments about our community who have recommended these boundary changes. This is complete snobbery on another level not wanting our community to be part of Olton which it has always been. We as a community are proud to part of Olton and do not want to be moved without the consent of the residents or elected councillors of the area.
