## Comment text:

**Related subject:** The proposed transfer of the residential area around Stonor Park Road from the present St. Alphege Ward to Olton Ward

We would not be happy with the proposed transfer of the residential area around Stonor Park Road from the present St Alphege Ward to Olton Ward. We who live in this area have a Solihull postal address not an Olton address. We have little connection with the northern part of Olton Ward. In fact, this residential area has more affinity with the area immediately to the south which forms the present Shirley East Ward and is to be named Sharmans Cross Ward. Moreover, we have always been well represented by Conservative councillors in the St. Alphege Ward for many years now and have no wish to be represented by Liberal Democrat Councillors presently representing Olton Ward.
