I was shocked and very upset to hear I was no longer going to be able to vote in Olton Ward for my local councillor due to proposed boundary changes, even though I live in Olton.

I wish to have a councillor I can contact who is looking after the area I live in which is Olton.

I have attached some pictures showing the reason I feel the Olton boundary should not change, meaning I would be voting in the Lyndon Ward.

You will see an Olton sign showing people they are entering Olton, I live just pass this sign telling me I am in Olton.

You will also see other signage telling me and others how to get to Olton, there are no signs for Lyndon.

If I can see signs of where I live, I wish to vote in that area.

I add Olton to my address details and tell visitors to look for Olton signs to get to me.

There are also pictures of the distance to Olton Railway station and library.

I live 8-9 minutes (walking distance) from both.

Others who will be still classed as Olton live up to 40 minute's (walking distance) away.

How does this make sense?

I understand you have to make wards equal, but I feel very strongly about moving people who clearly live in Olton to Lyndon ward.

I feel the boundary changes need to be reviewed further and the consultation process be more publicised to those affected.
Or is this not done as you do not wish to get our views.

I moved to Olton as I wished to live in that area for many reasons, transport, schools and church's.

I hope you will listen to others this will affect. I am very happy as are others to see you in person to show you why we should stay part of Olton.

I hope my views clearly disagreeing with the changes are taken seriously.

I look forward to hearing from you shortly.
