Related subject: All of you

You are all making decisions that affect all living on the wirral with out direct consultation with the people you work for unfortunately to our detriment. You are owed by the people of the wirral and work for the people of the wirral. Unfortunately the corruption in government is beyond depth and the whole thing needs rasing to the ground and rebuilding. A citizens task force needs to sigh off next to your council show of hands enough is enough
